

# AI Hospital

MedExFuture | Doctor-Exclusive Investment

# Why MyMedEx

MyMedEx is the first intelligent, personalized digital hospital designed for doctors

Connect with Persian-speaking patients worldwide

Serve international patients without migrating or leaving your country

Permanent support by Dr. Bot for smart prescription assistance

Earn real foreign currency income with dollar-based growth

## MedExFuture Roadmap

# MyMedEx Roadmap

## Phase 1 – Focus on Persian speakers abroad

- Target: Reach 25 million Persian speakers living outside Iran (Iranian, Afghan, Tajik)
- 500,000 Persian-speaking users registered by September 30, 2025
- 1 million active users by September 2026

# MyMedEx Roadmap

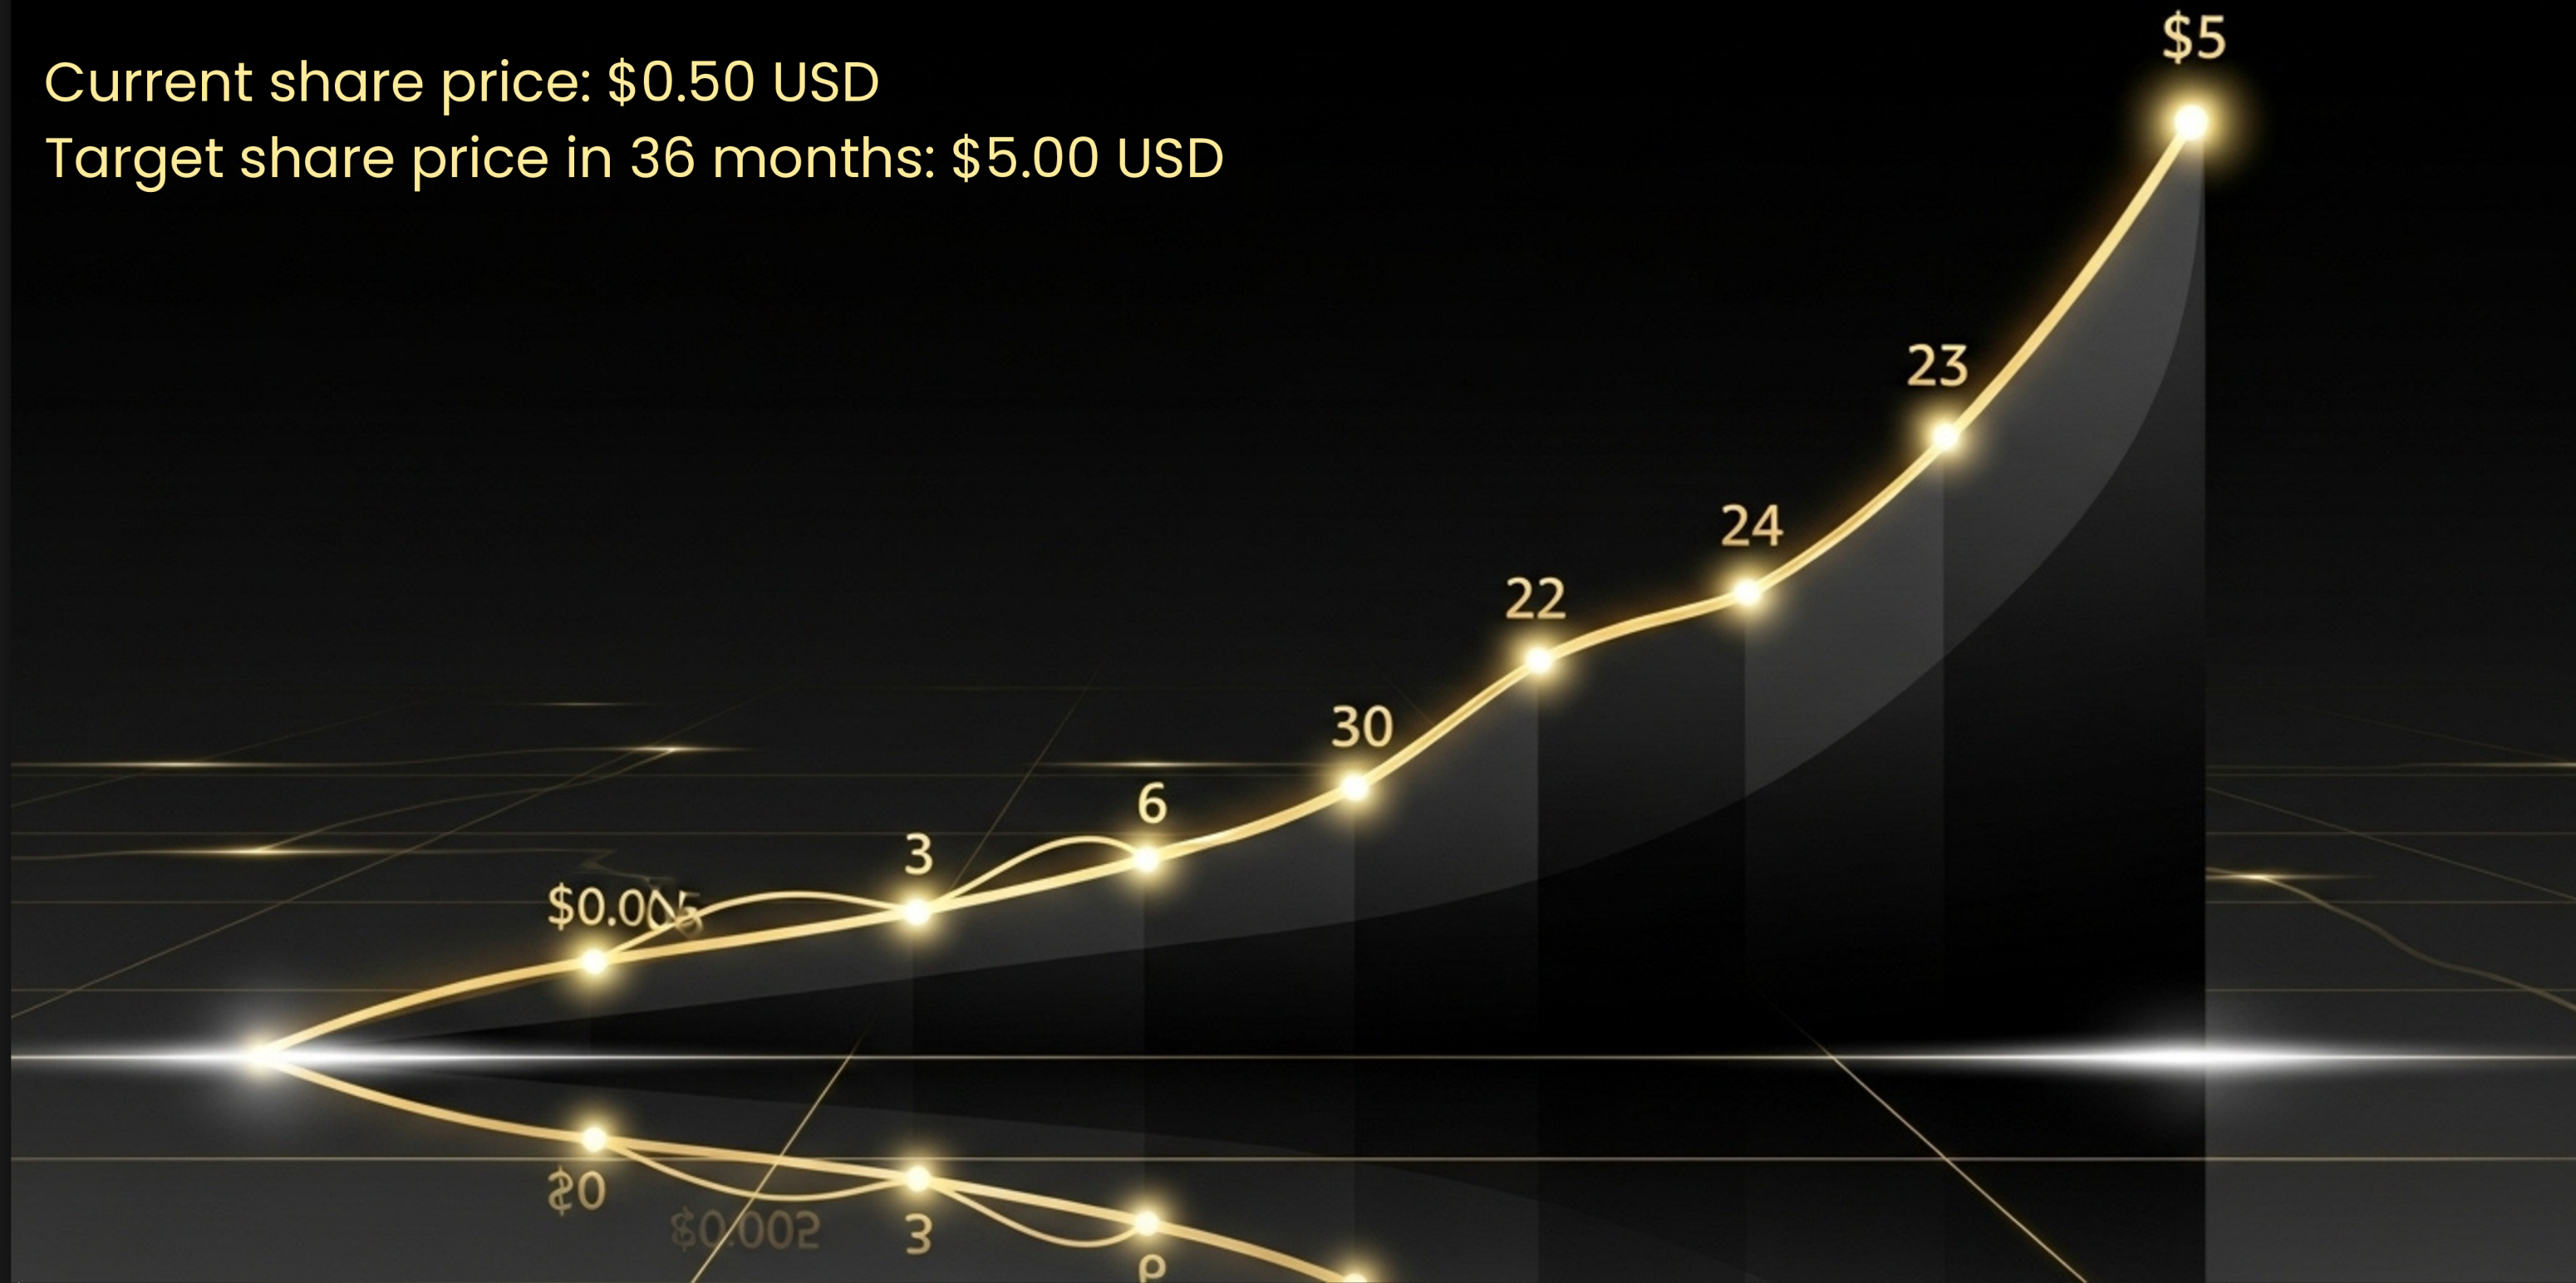

## Phase 2 – Entry into the Arabic-speaking market

- Launch of Arabic version of MyMedEx in January 2026
- Target: Access to the 300-million Arabic-speaking population of MENA
- Construction of a specialty hospital and wellness resort in Oman for AgeX services

# Profit Model & Shareholding Structure

- First 18 months:
  - Annual profit paid in cash, distributed quarterly
  - Percentage based on total payment and current share price
- Second 18 months:
  - No cash payouts; instead, new shares are granted to the investor equal to the profit
- End of 36 months:
  - Shares become official, finalized, and tradable
  - Share value increases with platform growth
  - Official ownership in MedEx Oman

Current share price: \$0.50 USD  
Target share price in 36 months: \$5.00 USD

## Doctor Investment Packages

Price per share – June: \$0.50 USD

○ Doctors who register and invest during the Iran Health Exhibition receive an additional 5% annual return.

## Legal Investment Protection

- All contracts are prepared by the MedExFuture legal team and can be officially registered in Iran
- Official representative in Iran: Tirita Tejarat Farda Co., acting as legal guarantor
- Principal capital is guaranteed in the official contract
